

SPECIALTY SHEET

Flexilume®

Flexilume Sheet

Description

Flexilume Sheet is best used as an overlay sheet for lenses or louvers, or as contour inserts with perforated metals or reflecting surfaces.

This thin, flexible sheet (.020") is easily cut or sheared. Available in clear or white impact acrylic, Flexilume features a matte/smooth finish, excellent uniformity, and offers 91% transmission for clear, 62% transmission for white.

Standard sheet available, as well as custom sizes.

Materials

See the LexaLite brand price list for current part numbers and material offerings. Up-to-date and detailed material specifications can be found in the Products/Technical Resources section of our web site at www.alplighting.com.
