

6000 Reflector Series

for Quick, Simple Retrofit of Grid Ceiling Fixtures

Description

The 6000 Series Reflectors are an economical one piece reflector used to delamp fluorescent ceiling/grid troffers from 4-lamps to 2-lamps using optional socket plates to recenter lamps after delamping. This reduces energy, improves efficiency and keeps light loss to a minimum.

Features and Benefits

Anodized Aluminum (RA) reflectors are manufactured with an 86% minimum reflectance. The 6000 Reflector is designed and manufactured in compliance with U.L. Standards for retrofit reflectors.

Applications

Suitable for relamping in commercial, industrial and institutional applications.

Ordering Information

Please call 800-587-3310 for price and delivery.

Notice

Reflector kits do not come with a ballast and are not pre-wired. Lighting Plastic Solutions, assumes no responsibility for suitability of these materials in any luminaire or application. Please test for fit and function prior to ordering project quantities. Dimensions subject to change without notice.
