**Description**
The 6000 Series Reflectors are an economical one piece reflector used to delamp fluorescent ceiling/grid troffers from 4-lamps to 2-lamps using optional socket plates to recenter lamps after delamping. This reduces energy, improves efficiency and keeps light loss to a minimum.

**Features and Benefits**
Anodized Aluminum (RA) reflectors are manufactured with an 86% minimum reflectance. The 6000 Reflector is designed and manufactured in compliance with U.L. Standards for retrofit reflectors.

**Applications**
Suitable for relamping in commercial, industrial and institutional applications.

**Ordering Information**
Please call 800-587-3310 for price and delivery.

**Notice**
Reflector kits do not come with a ballast and are not pre-wired. Lighting Plastic Solutions, assumes no responsibility for suitability of these materials in any luminaire or application. Please test for fit and function prior to ordering project quantities. Dimensions subject to change without notice.

**Specifications**
- **Reflector:** Anodized Aluminum
- **Efficiency:**
  - RA: 86% standard specular
  - RM: 94% specular
  - RW: 90% diffuse white
- **Options:**
  - Socket Plate
  - End Caps
6000 Reflector Series
for Quick, Simple Retrofit of Grid Ceiling Fixtures
