

ELOA Shielding Kit for EL Troffers

2x2, 2x4

ELOA 2x4

Elegant Design

The sloping acrylic side panels and unique lamp placement maintains the look and feel of a deep RDI luminaire — subtle soft indirect elements, interest and depth across the ceiling plane — with a kit that consumes minimal space and material.

Efficient Solution

The contoured panels of the unit are high transmission acrylic that provide a low-brightness glow, while the center rails and high reflectance white baffle blades control the primary beam.

Application

For use with standard Steel Craft EL housing.

Ordering Information

Please call 877-257-5841 for price and delivery.

Ordering Information

Example: ELOA22-SS

ELOA	22	—	SS
Series	Size		Finish
ELOA	22 - 2x2 24 - 2x4		SS - Semi Specular Silver BW - Baked White Enamel

ELOA

2x2, 2x4

Specifications

Door Frame

Features positive latching mechanism for easy re-lamping.

Direct Optical Component

High reflectance optical engine delivers main beam focus through the bright white parabolic baffle.

With 90% reflectance and parabolic shape, the result is an ideal balance between brightness control and efficiency.

Diffuser Surround:

(2) Sloping high transmission acrylic diffuser panels manage contrast and generate soft, even, higher angle luminance.

Reflector

High reflectance white reflector distributes light through both optical elements. Optional WhiteOptics™ reflector available.

Luminaire Type

Fits most standard lay-in lensed or parabolic housings 2X2' and 2X4'.

Lamps

1, 2 or 3-lamp T8 or T5 fluorescent reflector kits available.
