

ELRHT Shielding Kit for EL Troffers

2x2, 2x4

ELRHT 2x4

Elegant Design

The ELRHT incorporates a radial Duri-Flex™ high transmission optic between sloping acrylic panels providing the look and feel of a deep RDI luminaire — subtle soft indirect elements, interest and depth across the ceiling plane — with a kit that consumes minimal space and material.

Efficient Solution

The contoured side panels of the unit are high transmission acrylic that provide a low-brightness glow, with the majority of the light controlled through the center optical element.

Application

For use with standard Steel Craft EL housing.

Ordering Information

Please call 877-257-5841 for price and delivery.

Ordering Information

Example: ELRHT22-CL

Series	Size	Finish
ELRHT	22 - 2x2 24 - 2x4	CL - Clear High Transmission SQ - Square Pattern

ELRHT

2x2, 2x4

Specifications

Door Frame

Features positive latching mechanism for easy re-lamping.

Direct Optical Component

High reflectance optical engine delivers main beam focus through the revolutionary Dur-iFlex™ HT diffusing panel. With 93% transmission and 89% haze, the result is extraordinary control and efficiency. The radial curve reduces interior reflections and improves transmission. The Radial HT geometry is particularly suited for single lamp conversions.

Diffuser Surround:

(2) Sloping high transmission acrylic diffuser panels manage contrast and generate soft, even, higher angle luminance.

Reflector

High reflectance white reflector distributes light through both optical elements. Optional WhiteOptics™ reflector available

Luminaire Type

Fits stand Steel Craft EL housing body 2X2' and 2X4'.

Lamps

1 or 2-lamp T8 or T5 fluorescent wiring kits available.
