

KC2100 Series Urbanus

Direct / Indirect for Strip Fixture Retrofit

Description

Through the art of perforated metals and modern lines, these easy-to-install kits accommodate different mounting configurations, depending on your needs. No matter which model you choose, you are guaranteed a simple beautiful and cost effective solution with KC2100.

By choosing from reflector types and basket materials, the lighting designer controls the light intensity. The KC2100 can be used to retrofit a flush-mounted strip or a hanging strip.

Features and Benefits

- Perforated metal reflectors and baskets are made of cold rolled steel
- Perforated metal parts are post painted with a durable baked polyester white powder coat
- Each piece is formed by our state-of-the-art multi-radii machine for consistency
- The acrylic basket option provides greater light output while diffusing light for a glare controlled look
- Reflector is used as a ballast cover

Application

Suitable for Retrofitting flush-mounted or hanging strip fixture in commercial, industrial and institutional applications.

Ordering Information

Please call 877-257-5841 for price and delivery.

Notice

Reflector kits do not come with a ballast and are not pre-wired. A.L.P. Lighting Components, Inc., assumes no responsibility for suitability of these materials in any luminaire or application. Please test for fit and function prior to ordering project quantities. Dimensions subject to change without notice.

Notice
While A.L.P. utilizes IESNA testing procedures and believe our testing results to be accurate, A.L.P. provides photometry for reference only. Actual results will vary based on the actual lamp/ballast combination used, operating temperatures, and other electrical and environmental variables. We urge the customer to perform their own qualification of the fixture before making performance based claims. In no event will we be liable for any loss or damage including without limitation, indirect or consequential loss or damage in connection with the use of this information.
