

## MISSING WRAP LENS

(fixture remains / lens missing)

**Worksheet**

Please provide measurements from your existing fixture:

**End View of Lens**

**EXISTING FIXTURE**

- Side A (Hook to Hook) \_\_\_\_\_
- Side B (Overall Width) \_\_\_\_\_
- Side C (Overall Length) \_\_\_\_\_

**NEW LENS INFORMATION**

- Side D (Height/Clearance) \_\_\_\_\_

"D" Measurement needs to provide ample clearance from lamp/bulb area to the lens. Typically, it is 1-1/2 to 2 inches in a standard lens, but please measure for accuracy.
