Parabolic Louver Retrofit
1-1/2” × 2” × 2-5/8” Aluminum Parabolic Louvers

2x2 and 2x4 Universal Adapter System

**Elegant Design:** Update the look, feel and efficiency of an existing parabolic luminaire with the simple and elegant UA conversion system. The A.L.P. Parabolic Louver family incorporates the latest materials and manufacturing process to ensure a crisp finish and long term durability.

**Efficient Solution:** Reducing louver cell height and cell count is one of the fastest ways to increase fixture efficiency. Match with A.L.P.’s universal 7000 Series Reflector family for easy lamp relocation and removal. Changing the louver material can add needed brightness or additional glare control as necessary.

**To Order:** Select description from each column.
