ELPLLA / ELPLNA Parabolic Louver for EL Troffers
1-1/2” and 2-5/8” Aluminum Parabolic Louvers

Elegant Design
Ready to install parabolic louver. 2 x 2 and 2 x 4 available in white and semi specular. The A.L.P. Parabolic Louver family incorporates the latest materials and manufacturing process to ensure a crisp finish and long term durability.

Efficient Solution
Reducing louver cell height and cell count is one of the fastest ways to increase fixture efficiency. Match with A.L.P.’s universal 7000 Series Reflector family for easy lamp relocation and removal. Changing the louver material can add needed brightness or additional glare control as necessary.

Application
For use with standard Steel Craft EL housing.
