Straight Blade Aluminum Cross Baffle

CB Series

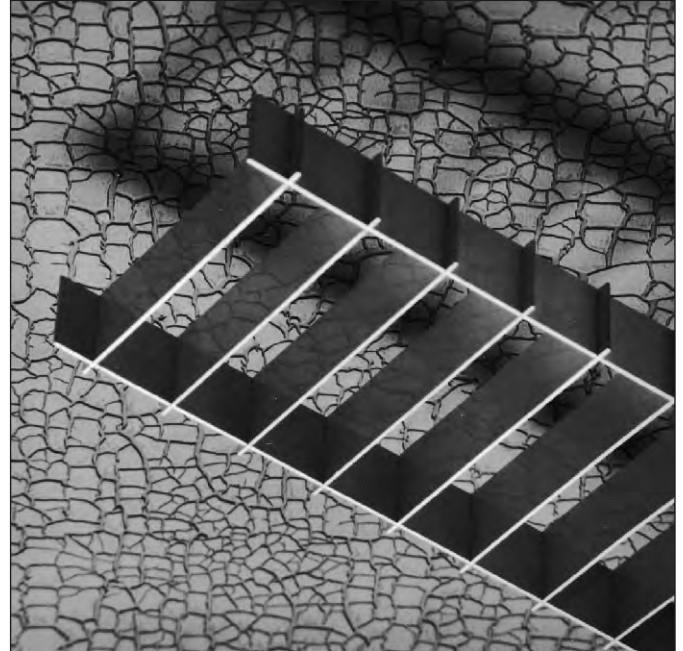

The straight blade Cross Baffle provides **excellent perimeter, corridor and accent lighting** where more illumination is needed or desired. It is available with many options relative to size and finishes, the cross baffle is easy to install and **will fit most any decor**.

SPECIFICATIONS

Cross Baffle is a **straight blade aluminum baffle** which can provide **45° shielding** along the parallel axis and a wider light distribution in the other axis. This louver is ideal for perimeter, accent and corridor lighting.

Aluminum **thickness to be 0.025" for 1/2" and 3/4" high baffles and 0.040" thickness for 1" high baffles**. Baffles shall have a baked white enamel finish (stock).

Baffle shielding shall be 45° along the parallel axis and a wider light distribution in the other axis, when baffle blade spacing is equal to baffle blade height.

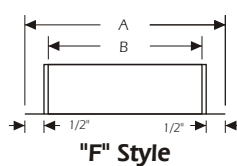

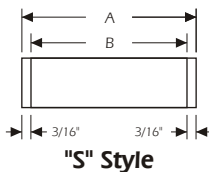

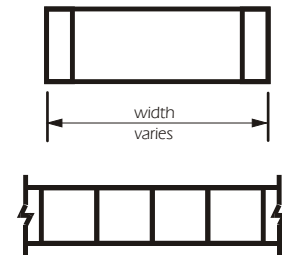

CB SERIES

Specify width and length. Other finishes, baffle spacing, depths and blade thicknesses are available, contact A.L.P. Customer Service.

Catalog No.	Description	Blade Spacing	Depth	Width	Length
