## EFP 160GS

Emergency Fluorescent  
Power Pack

### Specifications

#### Housing

Painted red steel housing  
with 2' conduit on one end.

#### Lamps

Compatible with 1-lamp, 2-lamp,  
3-lamp and 4-lamp fixtures with  
many ballast types including  
standard, rapid-start, slimline,  
instant-start, dimming and  
electronic AC ballasts.

### General Description

EFP 160GS works in conjunction with an AC ballast to convert new or existing fluorescent fixtures into unobtrusive emergency lighting. They maintain illumination of one lamp in the emergency mode for a minimum of 90 minutes.

### Features and Benefits

- Provides a minimum of 90 minutes of emergency illumination
- Can be installed inside, on top of the fixture or remotely mounted
- Can be used in both switched and unswitched fixtures
- Specification grade

### Approvals and Listings

- UL 924 listed for damp location
- UL listed for retrofit/field installation
- Life safety NFPA 101
- NEC/OSHA
- Meets most state and local codes

### Electrical

- Dual voltage input 120V/277 VAC, 60Hz
- Solid-state charger circuit
- Test switch/power indicator light (optional remote test switch plate available)
- Temperature rating (ambient): 0°C to 50°C [32°F to 122°F]
- Maintenance-free, long life, sealed Nickel Cadmium battery
- Maximum battery recharge time: 24 hours

### Warranty

All lighting emergency ballasts are warranted for a full five (5) years against defects in material and workmanship (lamps excluded).

### Note

Conditions apply for remote mounting.  
Consult factory.
