

MISSING WRAP LENS

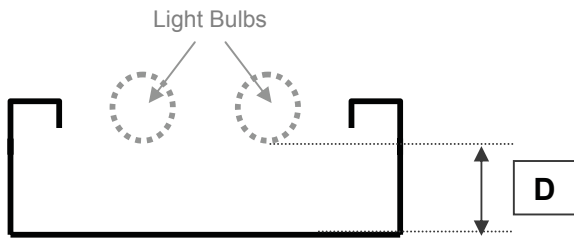

(fixture remains / lens missing)

Worksheet

Please provide measurements from your existing fixture:

End View of Lens

EXISTING FIXTURE

- Side A (Hook to Hook) _____
- Side B (Overall Width) _____
- Side C (Overall Length) _____

NEW LENS INFORMATION

- Side D (Height/Clearance) _____

"D" Measurement needs to provide ample clearance from lamp/bulb area to the lens. Typically, it is 1-1/2 to 2 inches in a standard lens, but please measure for accuracy.
